

TAKATA EMERGENCY : 2665 TOYOTA, FORD AND OPEL STILL WANTED IN FRENCH GUYANA

NCCIE

CONCESSIONNAIRE AUTOMOBILE

TAKATA RECALL : ABSOLUTE PRIORITY TO THE SAFETY OF TOYOTA, FORD AND OPEL CUSTOMERS OF FRENCH GUYANA

Since 2018, Toyota organized numerous Takata recall campaigns worldwide. Thanks to these campaigns, the NCCIE has been able to change 1839 airbags on Toyota vehicles in Guyana, however there are still 1627 dangerous vehicles to find. Likely, we still have 272 Ford vehicles and 766 Opel vehicles concerned by the Takata recall to find and secure.

If security efforts on concerned vehicles never ceased in Guyana since 2018 for Toyota brand and 2022 for Ford brand, communication and public alert efforts will from now on be strengthened. **It's about a race against time since wear and aging of vehicles increase the risk of lethal accident. Therefore, we call on all drivers of the vehicles concerned to come to a workshop to secure their vehicles for free.**

About Takata crisis :

The Takata airbag crisis is a major safety problem linked to airbags manufactured by the Japanese company Takata. The crisis erupted following the discovery that some of these airbags could rupture during deployment, thus causing a potentially lethal risk. These failures have been associated with serious injuries and even deaths. The airbags in question were mainly installed between 2002 and 2017 by 19 automakers, covering 34 brands worldwide. By the end of 2023, more than 30 deaths were accounted, including 26 in the USA, linked to these failures. Takata airbag explosions have injured more than 400 people worldwide.

NCCIE
